## Life can be complicated.

So many marriages end in divorce these days.

Would you be able to think clearly and make all the right decisions during a painful and confusing divorce? Whom could you trust to guide you through complicated alimony, child support, and property division issues? How can you ensure a favorable outcome for your finances, your legal status and your children's lives for years to come?

You're buying your dream home! The bank has an attorney protecting its interests, shouldn't you?

Three million people are injured annually in the U.S. in car accidents.

Others are injured in slip and fall incidents, dog bites and other situations. What if you are injured? Are you entitled to compensation for medical expenses, loss of income, or personal suffering?

You've always wanted to own your own business, but you never bargained for all the legal hassles involved with employees, vendors, creditors, suppliers, and landlords. Many situations can be settled far more amicably and economically with mediation and arbitration using a highly trained, skilled and experienced Alternative Dispute Resolution (ADR) attorney.

What if you or a family member was arrested for driving while intoxicated?

The right attorney could make the difference between jail time and a long criminal record, or probation and a clean slate!

Your parents are enjoying their golden years now. But what if they can no longer take care of all the details of independent living? How can you protect their assets from financial predators?

Starting a family? Are you sure you know

everything you need to know about adopting a child or protecting your heirs with a good Will, Trust, or Health Care Proxy?

**Don't let chance (or someone else's attorney!) control the outcome of events that affect the rest of your life.**

**Enjoy the peace of mind that comes with having *Lian, Zarrow, Eynon & Shea* at your side to provide legal solutions for life's many complications.**
